

The Social Security Administration (SSA) has announced a goal of transforming their disability claims process into an entirely electronic process. Social workers who would like to register to begin using Social Security's secure Web site to send health records or would like more information about the options available for submitting health records to Social Security electronically, should send an e-mail to [eme@ssa.gov](mailto:eme@ssa.gov) or call 1-866-691-3061.
